The Grand Sturdy Variotop® series

The Variotop® is a folding roof that covers the wheelhouse so that it is completely watertight and insulated thanks to ingenious locking and sealing systems. Close the Variotop® and the wheelhouse doors and the open helmsman's position is instantly transformed into a heated Variotop® wheelhouse where it is a pleasure to be. On a warm summer's day, just cruising along, the boat gently rolling at anchor or leisurely

moored to the quay, the Variotop® – now like a fully fledged bimini top – provides wonderful cool shade.

The Grand Sturdy yachts with Variotop® are available in 3 lengths:

- the Grand Sturdy 450 AC Variotop®
- the Grand Sturdy 500 AC Variotop®
- the Grand Sturdy 550 AC Variotop®

The Linssen Variotop®

A yacht equipped with a Linssen Variotop® is actually a very special combination of an inside and outside helmsman's position and a fly-bridge. With a Variotop® you are sailing 'outdoors' and you can combine the aft deck or open cockpit with the wheelhouse to form one big external space. If the weather gods are less well disposed towards you, just close the Variotop®, and you will actually be connecting the helmsman's position to the aft cabin, creating an impressive internal space. In this way the Variotop® unites the compartments and

therefore the crew. This makes the yacht suitable for all seasons and ensures a great experience while cruising. The Linssen-Variotop® offers a perfect balance between functionality, comfort and design.

Doordacht detail: de beugel waarin de Variotop® bij openen verdwijnt, kan worden neergeklapt. Op die manier verkleint u de doorvaarthoogte en vergroot u uw vaargebied.

Linssen One-Touch Variotop[®]

The Variotop[®] is part of an integrated concept in which the convertible top, wheelhouse, helmsman's position and bench seat form one ergonomic, comfortable and aesthetic unit. The result is an unbelievable sailing experience on every yacht in our Variotop[®] range.

If you choose the Variotop[®], you actually get three yachts in one. Switching between the three takes a matter of seconds. When you close the Variotop[®], you create a yacht with a comfortable wheelhouse and excellent all-round visibility. Very pleasant, especially during the cold seasons. When you open the Variotop[®], you transform your yacht into an aft-cabin model without canvas. With the cockpit bench in its highest position, you can look out over the windscreen and experience the elements in all their glory. If you want to keep the heat out and let in a cooling breeze on a summer's day, put the Variotop[®] in the bimini position. This creates a fantastic flybridge.
